ITW EAE Achieves ISO 14001 Certification Across All Manufacturing Sites

Lakeville, Minnesota, USA, January 14, 2025 – ITW EAE, the Electronic Assembly Equipment division of ITW, proudly announces that its manufacturing facilities in Camdenton, Missouri; Lakeville, Minnesota; and Suzhou, China have achieved ISO 14001 certification. This certification shows ITW EAE’s commitment to environmental sustainability and operational excellence.

ISO 14001 is the international standard for Environmental Management Systems, providing a framework for organizations to identify, manage, and reduce their environmental impact while fostering sustainable practices. The scope of ITW EAE’s certification includes the design, manufacture, installation, and service of ovens, soldering, printing, dispensing and cleaning equipment for the electronics and industrial markets.

“We take pride in this achievement,” said Geoff Klein, Operations Director of ITW EAE. “Achieving the ISO 14001 certification reflects our ongoing commitment to environmental stewardship and continuous improvement.”

ITW EAE is the Electronic Assembly Equipment division of Illinois Tool Works, a global leader in process knowledge, services and manufacture of capital equipment for the printed circuit board assembly and semiconductor industries. This division comprises renowned brands: MPM Printers, Camalot Dispensers, Electrovert Cleaners and Soldering Solutions, Vitronics Soltec Soldering Solutions and Despatch Thermal Processing Technology.

With manufacturing centers in Camdenton, Missouri; Lakeville, Minnesota; and Suzhou, China, ITW EAE is committed to advancing sustainable manufacturing practices across its global operations. Sales and support offices are strategically located in Hopkinton, Massachusetts, USA; Lakeville, MN, USA; Camdenton, Missouri, USA; Guadalajara, Mexico; Singapore, Suzhou, China; Oosterhout, Netherlands; and in Alzenau, Germany.
